Internationalization of Port of Constantinople in Provisional Terms of the Pact.

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, June 16.—A British tank steamer ran the blockade and landed a cargo of oil for Gabriele d'Annunzio, according to reports.

PARIS, June 16.—A French battalion which had been occupying Cilicia, Asia Minor, northwest of Adana, was ordered to leave the town, according to the Temps. The French troops, in column formation, had succeeded in having a passage toward the coast from Bozanto, about fifty miles inland, and was proceeding southward about a dozen miles from Adana its ammunition gave out and the column was compelled to capitulate.

WASHINGTON, June 16.—Limited internationalization of Constantinople and its inclusion within the zone of the pact provided for in the provisional terms of the Turkish pact is disclosed by an official summary received here today. The summary provided for the inter-allied commission to draw its own flag, budget and separate organization, by the lines of the boundaries fixed for the zone, will have authority over a territory considerably larger than the smaller nations of Europe.

East, was summarized recalled from Constantinople upon the occupation of that city by Allied forces, commanded by the British general, Milne, according to the official summary.

Gen. Milne, according to the official summary, assumed absolute authority over the zone upon a policy of active operation against the Turkish Nationalists. In this, he is said to have been assisted by Gen. D'Espey, who insisted that Gen. Milne was answerable to his authority.

This official summary said, was responsible for the removal of Gen. D'Espey.

Palmer Starts West Monday.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, June 16.—Wilber W. Marsh of Waterloo, Iowa, treasurer of the Democratic National Committee, arrived here today and joined the committee officials who are arranging for the party's national convention, which opens June 28.

Vice-President Marshall and the party of Mrs. Thomas F. Walsh of Washington, D. C., left today for Detroit to remain until June 25, before returning to San Francisco.

Homer Cummings, chairman of the Democratic National Committee, announced today the appointment of Joseph J. Starnett, former chief doorkeeper of the House of Representatives, as chief doorkeeper for the convention.

Plans for the reception of convention visitors, particularly women delegates and wives of delegates, were laid at a meeting of the Women's State Democratic Club of California today. Mrs. Charles L. Donohoe of Oakland, former president of the club, said the organization, during the convention, would confer with its eight members, who are delegates to the national meeting.

The arrival of E. H. Moore, campaign manager for Gov. Cox of Ohio, is expected tonight.

WANT DRY PLANK ADOPTED.
WASHINGTON, June 16.—Prohibition advocates will ask the Democratic national convention at San Francisco to adopt a plank declaring for rigid enforcement of the eighteenth amendment and the enforcement act and will present a solid front against Gov. Cox of Ohio, Wayne B. Wheeler, general counsel for the Anti-Saloon League, declared today in a formal statement.

The resolutions committee at "Chicago," said Wheeler, "adopted a law enforcement plank and lost it because the delegates refused to accept it. The resolutions committee at Chicago," said Wheeler, "adopted a law enforcement plank and lost it because the delegates refused to accept it."

Wheeler said Gov. Cox was the man who was in the Kiev region, ever since the Bolsheviks have swept in their westward drive, have safely emerged from that sector, according to reports from the front, but several of them had nearly been captured.

DEFIANT UNIONS IN
PHILADELPHIA DEFY
POLICE; MOB RULES

(EXCLUSIVE DISPATCH.)
PHILADELPHIA, June 16.—Rioting, pitched battles with the police and the shooting of a little girl were today's sinister developments in the longshoremen's strike. The violence was the result of a sudden marked increase in union-labor activities along the water front. The strike, which is to enforce a demand for \$1 per hour, has been approved by the Montreal convention of the American Federation of Labor.

Today was decidedly the biggest day in shipping at this port since the beginning of the strike. The steamship and stevedore interests will not disclose where they are securing their labor. Members of the Marine Transport Workers' Union said the new men were strike-breakers and caused the trouble.

The first disturbance occurred shortly after noon. A number of men who had been working on the docks at the foot of Pine street during the morning were attacked by incensed strikers. The police came to the rescue of these men and more than 100 longshoremen participated in the battle of bricks and milk bottles that ensued. During the fight several shots were fired, and little Rose Skopek, 9 years old, was hit in the arm by a stray bullet. She was removed to a hospital.

TWO ARE ARRESTED.
Two men were arrested in connection with the shooting. They gave their names as Anthony Zolowski and Daniel Jackson. They were held without bail for further hearing on Friday for carrying a dangerous weapon with intent to kill and carrying concealed deadly weapons.

A riot call brought police runners to the scene of the trouble. By the time the first riot was over, a second riot call came in from the Callowhill street riot.

When the police reached Callowhill street they found a pitched battle in progress between the longshoremen and police. Many of the strikers were armed.

The strikers officers rode into the street with drawn revolvers and drove the strikers away.

THREATEN POLICEMAN.
Following the rioting several strikers cornered a policeman at Front and Pine streets and forced him to take refuge in a cigar store. They then drew revolvers and threatened to shoot him if he came out of the store. Other policemen arrived and drove the strikers away.

At Callowhill street many of the strikers not involved in the actual hand-to-hand fighting stood off and threw bricks and iron bolts at the police and men employed on the water front.

Superintendent Police Mills said today that the police department would take all necessary steps to maintain order. Following the rioting, 300 extra policemen, half of them mounted, were assigned to patrol the water front.

With the moving pickets' plan of campaign, done by the longshoremen, the work of the Citizens' Trucking Company trucks is greatly hampered. The strikers have twenty-two automobiles for use in picket duty filled with stones and bricks.

The trucks which move from the piers in groups of two, three or more, are being followed by the strikers who are throwing stones and bricks at the trucks. The strikers are throwing stones and bricks at the trucks.

DIFFICULTIES NUMEROUS.
In some cases the helpers on the trucks are able to make the transfer from the trucks to lighters, but when the longshoremen or warehouse men threaten to quit, the goods as in the case of the eight trucks of rice and the six trucks of flour, are not moved.

There has been no violence. Each truck carries a policeman and the processions are orderly.

The trucks have been hired from small truck men. In some cases only the vehicles have been taken over, in others the drivers, where they happen to be nonunion men, go with the trucks. A garage with accommodations for 200 has been acquired. At present the committee is hauling freight without charge. It will continue to do so until the piers are cleared and normal conditions are reached. Then a schedule of rates will be drawn up, out of which the expenses of the company will be paid.

The 3000 tons of stuff with which the strikers in charge of the freight movement on the four coastwise piers are trying to get out of the city, are being shipped north. The goods have been piled on the piers and the strikers are trying to get them out of the city.

When a special request is received from merchants for delivery of any particular lot, a gang of men is set to work to dig it out of the piles, hence the progress for the few days has been slow.

William Kehoe, recording secretary of the Transportation Trades Labor Union, who came down from the labor convention at Montreal last night, before returning to Montreal this morning said:

"I am just back from the labor convention and I do not know the situation thoroughly. It seems that the merchants are trying to make a big issue of this trucking company, whereas it is only a small thing. If they continue with it there will be a big labor movement in New York to stop it."

Berlin and Moscow Said by

Weird Tale of Intrigue is
Gathered from Many
Sources.

BY JOHN H. CLAYTON.
(BY CABLE-EXCLUSIVE DISPATCH.)
PARIS, June 16.—Moscow gold is behind the revolutionary movement throughout Islam, but it is not alone, Moscow cannot supply all the money needed to back the undertaking, which aims to shatter the British empire, but Moscow certainly is "doing her bit."

The ramifications of the Islamic plot are beyond comprehension. It finds a hearty co-operation in every country wishing England harm. The head of the Austrian Prisoners' Relief Commission in Russia, admitting he was empowered by his government to conclude an alliance with Soviet Russia, said in my hearing: "The one object of my life is to bring England to her knees. The revolutionary movement throughout the colonies of France and Italy, as well as those of England."

The man told a weird tale of intrigue which followed no program. Who its leaders were it was impossible to discover, because they might be of high or of humble birth—something heretofore unheard of in Islam. There was certain only one thing—the leaders were in touch with those in "Egypt, Afghanistan, Persia and India, and were being supplied with money from anti-British sources, presumably Berlin and Moscow."

IN PARIS last June I began to get some definite knowledge when I met a young British officer, who had just returned from Morocco and Tunis—for the Islamic revolt affects the colonies of France and Italy, as well as those of England.

He told me a weird tale of intrigue which followed no program. Who its leaders were it was impossible to discover, because they might be of high or of humble birth—something heretofore unheard of in Islam. There was certain only one thing—the leaders were in touch with those in "Egypt, Afghanistan, Persia and India, and were being supplied with money from anti-British sources, presumably Berlin and Moscow."

AGAIN we learned new details with the arrival from Alexandria, of a boat with Egyptian Nationalists aboard. They were on their way to Berlin, and probably Moscow, for several Egyptian Nationalist journals arrived in the Russian capital shortly after and, have remained there since. They talked in riddles of the coming revolt in the East, which was to crush the British and to set up an empire of true believers.

In Trieste, propaganda headquarters of the Egyptian Front, I found Pasha, one of the Egyptian Nationalist emissaries to the Peace Conference, and a young Egyptian named Wahbi Bey. They also talked of a united Islam which would free all the eastern peoples from the English yoke. Through them I received my first intimation that the Bolshevik government was interested in furthering their aims.

TREATIES GIVEN
CLOSE SCRUTINY.Serious Problems Seen in
Commercial Agreements.New Merchant Marine Act
Proves Conflicting.State Department Examining
Documents.

(EXCLUSIVE DISPATCH.)

WASHINGTON, June 16.—Twenty-four commercial treaties with other nations, which are affected by a provision in the new Merchant Marine Act, are being closely examined by the State Department. Secretary of State Clegg said today that the problem of a serious nature is involved. He indicated that it might be necessary to abrogate some of the treaties in their entirety.

The Merchant Marine Act provides that the President, within thirty days, should determine upon other nations that the United States has exercised its right to impose a provision of the act, which prohibits the imposition of discriminating duties upon imports carried in American vessels. This provision, as well as others affecting foreign nations, was put in the bill as a means of aiding in building up a permanent American merchant marine. It marks a return to a policy abandoned by the United States more than a century ago.

It is taken for granted that President Lloyd George had reference to this section when he stated recently that the British government intended to file protests with the United States against certain sections of the act.

RECIPROCITY PRACTICED.

The policy of the government, as maintained for the past century, has been to promote reciprocal arrangements with other nations. The twenty-four commercial treaties in question make various nations a reciprocal nature, which would tend to prevent the imposition of discriminating duties upon imports carried in American vessels.

While the Merchant Marine Act provides merely for the abrogation of such sections of treaties, it is the opinion of the State Department that such action may alter the terms of the treaties in such a manner that the nations involved may prefer to draft entirely new treaties.

Abrogation of these commercial treaties will make it possible for Congress to impose discriminating duties such as were provided in the Underwood tariff law. The Underwood law provided that customs on goods imported in American ships should be the same as those on the charges exacted on goods brought in foreign vessels. This section of the law was invalidated by the Supreme Court, which held that the existence of treaties made the granting of preferential duties impossible.

JUDGE REMEMBERED

CRIPPLED BOY IN WILL.

REQUEST OF \$1000 WILD EN-

ABLE PARALYTIC TO BE-

COME AN ATTORNEY.

(EXCLUSIVE DISPATCH.)

CHICAGO, June 16.—The human feelings which Judge M. W. Finckley displayed while he was at the head of the Juvenile Court are illustrated in his will, disposing of an estate valued at \$150,000 and filed today for probate.

While sitting on court there came before Judge Finckley Ralph Riley, a crippled boy. Riley is now 18 years old and the judge leaves him \$1000 with which to complete his law studies.

1914 Riley was attending school and had reached the eighth grade. To support himself he was working for a carpenter before and after school hours. On the night of November 27 he discovered four boys robbing his employer's store. He pursued them and fought with them, but one of the youthful bandits stabbed him in the back. The blade struck close to the spine and Riley became paralyzed from the waist down. As soon as he was able he resumed his studies and graduated, leaving in 1914.

While in the hospital he was attended by the Chicago Athletic Association, which also looked after him in many other ways, paying for his correspondence courses in law. The \$1000 will be the judge will carry him to the goal of his ambition. He is now a court reporter, earning a good salary.

(BY A. P. DAY WIRE.)

WASHINGTON, June 16.—Department of Justice and Interstate Commerce Commission officials began working together today to relieve freight congestion on the nation's railroads and to restore coastwise shipping to normal, through settlement of a statement of the Underwood tariff law. The Underwood law provided that customs on goods imported in American ships should be the same as those on the charges exacted on goods brought in foreign vessels. This section of the law was invalidated by the Supreme Court, which held that the existence of treaties made the granting of preferential duties impossible.

FAMOUS GERMAN SEA

RAIDER TO BE SOLD.

(BY A. P. DAY WIRE.)

WASHINGTON, June 16.—One of the famous German commerce raiders, the Prince Eitel Friedrich, now the De Kalb, which took refuge in Hampton Roads during the early months of the war, is to be offered for sale by the Shipping Board on June 30. The vessel is in the Hudson River, where in January a fire of mysterious origin destroyed her superstructure and damaged her hull.

The giant liner Leviathan is to be offered on the same day. Sealed proposals for both vessels will be received.

The De Kalb was built at Stettin, Germany, in 1904. She is offered for sale "as is and where is."

GROVELAND BUILDINGS

FALL VICTIM TO FIRE.

(BY A. P. DAY WIRE.)

GROVELAND, June 16.—Fire of mysterious origin, which started at 11 o'clock last night, destroyed the postoffice, Coping's ice cream parlor, the new Co-operative store, Smith's cash store, the De Ferrari butcher shop, and then jumped across the street and destroyed the Federal office and justice court, a dance hall and a barber shop. The loss is estimated at \$30,000, partly covered by insurance.

The efforts of 300 volunteer fire fighters were handicapped by lack of water and apparatus. Early in 1919 a similar fire swept away most of the town's business section.

SHORTAGE OF LABOR

Women's Club Convention Gets Down to Business.

Mrs. Robert Burdette Leads Reorganization Fight.

Grand-daughter of Indian Chief Interesting Delegate.

(EXCLUSIVE DISPATCH.)
 DES MOINES, June 16.—A crowd of 7000 women became silent today when the gavel of Mrs. Joseph Evans Cowles, Los Angeles, federation president, called to order the fifteenth biennial convention of the General Federation of Women's Clubs, at the Coliseum.
 The committee reports occupied the opening session of the convention this morning. A preliminary hearing of reorganization plans, held Wednesday afternoon, brought spirited arguments from factions favoring and opposing revision of the present scheme of organization. Mrs. Robert Burdette, Pasadena, reorganization chairman, led the opening discussion. She urged the adoption of a new constitution providing that small clubs be excluded from the general federation unless they first affiliate with their local federation.
 "Such organization is the only logical method," she asserted. "Through such change of program we could carry on the constructive work for which this body should stand."
 URGES THRIFT PROGRAM.
 Promotion of a thrift program among federation women was urged Wednesday by Miss Georgia Bacon, candidate for the presidency, to succeed Mrs. Cowles.
 She asserted that women must tear away from the false standard of living.
 "The extravagance of the modern young woman is keeping young men from marrying," she asserted. "The modern girl demands an entertainment which costs her about \$10 an evening. She is asking for a limousine instead of a street car and an expensive supper after the theater."
 Miss Bacon urged mothers to act as community leaders to point young girls back to the way of common sense.
 The thrift department of the federation asked the biennial to pass a resolution asking the installation of thrift study into school curricula.
 An interesting delegate to the convention is Mrs. Eugene Lawson, Nowata, Okla., delegate from the State. She is the grand-daughter of Charles Johnny Cate, last chief of the Delawares. Chief Cate was an educated Indian, who was a Baptist minister. Mrs. Lawson is a college graduate and one of the most interesting women at the biennial.
 Americanization night is scheduled for this evening with a special Americanism program.

Accident Verdict in Drowning Case.
 (BY A. P. DAY WIRE.)

SAN FRANCISCO, June 16.—That the death of George W. Fraser, whose body was found of Museum Rock, San Mateo county, Sunday, was caused by drowning, probably accidental, was the verdict returned yesterday by a coroner's jury. The autopsy surgeon testified that the marks on his body probably came from being pounded against the rocks by the waves.

HARMONY MEET
FOR HARDING.Republican Nominee to Confer
with Progressives.Intends to Get Views of All
Party Leaders.Deluge of Congratulatory
Messages Continues.

(BY A. F. NIGHT WIRE.)

WASHINGTON, June 16.—Plans for bringing Senator Harding, the Republican Presidential nominee, into closer touch with party leaders, particularly those of the progressive wing, were discussed today at a conference which the Senator had with Walter F. Brown of Toledo, his floor manager at the Chicago convention.

The conference is understood to have resulted in a decision to send invitations at once to a number of prominent progressives, asking them to meet the Republican nominee to discuss the present situation and the coming campaign. The list of those to be invited will not be made public at present.

Friends of Senator Harding said tonight the proposed conference would be held before the nominee's formal nomination, which would be sometime before July 15. The Senator, it was said, wished to utilize the views expressed by his party leaders in preparation of his speech of acceptance.

While some of the meetings may be held before Mr. Harding leaves Washington Monday, the greater portion are expected to take place while he is on his planned vacation.

The visit of Brown today was regarded by political observers here as significant. In 1912 he was chairman of the Ohio State Progressive Committee and he was active in the campaign for Theodore Roosevelt. He was a delegate to the recent Chicago convention and after the defeat in the State primary of Harry M. Daugherty of Columbus, the Senator's campaign manager, as a delegate-at-large, was selected as Harding's floor manager.

"I think you will find the progress behind Senator Harding," Brown said as he left the Senator's office.

Indication that Harding intends to ascertain the views of all leaders in the party was contained in his announcement today of a conference last night attended by Senators Lodge, Republican Senate leader; Brandegee, Fall and Smoot. The platform adopted in Chicago was discussed.

Senator Harding made public a letter to Secretary of State Smith of Ohio, withdrawing his petition for renomination as the Republican candidate for Senator at the August primaries.

Shortly before the Senator left his office for the day, Gen. Pershing called and remained in conference with him for about fifteen minutes. "It was merely a social call," said the general. "The Senator is a very good friend of mine."

The deluge of congratulatory telegrams and letters continued today. Although he arrived at his office early and remained late, additional help had to be obtained to clear away the great mass of correspondence.

Senator Harding today sent the following letter to Maj.-Gen. Wood in reply to the latter's telegram of congratulation:

"I do not know quite how to express my feelings in dictating an acknowledgment to one who was a contender for the distinction which came to me. Perhaps I shall express myself inefficiently. If I say that had the distinction come to you instead of me, I should have found very great pleasure and satisfaction in conveying to you a very cordial message of felicitation and good wishes."

"I know that we are both interested in the same great good to our common country and I feel confident that you will be very deeply interested in bringing about a restoration of a Republican party administration at Washington and a return to the constitutional methods of government which were the concept of the founding fathers."

Senator Harding plans now to leave Washington Monday night after his conference with Chairman Hays of the Republican National Committee. He is considering three places in the East, not far from the Atlantic Ocean, where he and Mrs. Harding will spend their vacation before going to their home in Marion, O.

MARYVILLE (Mo.) June 16.—State party leaders have issued a call for Republicans of Missouri to meet at Sedalia on June 24. The call asserts a need for Republicans in the State "to clean their own house."

WILL REORGANIZE BAND.

(BY A. F. NIGHT WIRE.)

MARION (O.) June 16.—To make Marion county as nearly unanimous for Senator W. G. Harding, Republican nominee for President, as possible, steps were taken today for the formation of a county Harding for President Club.

An executive committee, composed of three Democrats and four Republicans, was appointed to outline a general program and appoint subcommittees.

The Calcedonia band, of which Senator Harding was a member in his boyhood, is to be reorganized. The organization, which is to be of thirty pieces, will be ready for the homecoming of Senator Harding, and in the event of his election expects to lead the inauguration day parade.

ITALIANS AT BACK
INSURGENT ALBANIANS.NO NEW ATTACKS LAUNCHED.
SNIPERS HARASS TROOPS.
CONTINUOUSLY.

BY CABLE AND ASSOCIATED PRESS. I KOME, June 16.—Conditions of Avlona, Albania, are fairly satisfactory, according to Brindisi reports. Insurgent Albanians, who have received severe punishment in recent skirmishes, have not launched any more attacks against Italian forces at Avlona, but their snipers have been firing continuously on Italian patrols.

The activities of these Albanians however, have virtually been stopped by airplanes, while Italian reinforcements have made reconnoissances outside the city possible.

New insurgent detachments continue to arrive from the interior to join the Albanians around Avlona. Two Italian carabinieri who ventured beyond the lines were stabbed to death. An Italian airplane has flown over the Albanian lines, dropping newspapers carrying articles denying insurgent reports that Italy was responsible for the assassination of Enver Pasha in Paris Sunday.

NEGRO "LIFERS" TRY
TO REGAIN FREEDOM.

(BY A. F. NIGHT WIRE.)

KANSAS CITY, June 16.—Habeas corpus proceedings seeking the release of the nine negroes now serving sentences of life imprisonment in the Federal prison at Leavenworth, Kan., are set for hearing in the United States District Court in Kansas City, Kan., for next Saturday.

The negroes were sentenced to prison following rioting of negro troops of the Twenty-fourth Infantry in Houston, Tex., Aug. 24, 1917.

Sizes 45 to 52 Bust Measure

Such values would have been remarkable three years ago—today they are wonderful. Dresses of satin, taffeta, crepe de chine, wool serge and wool jersey. A wide range of colors, and more than a score of styles to choose from. Clever designers have given them an unusual degree of charm. Truly, the large woman does not find her size a disadvantage when she shops at Hale's.

One Combined, Startling Clearance
Involving \$50,000.00 Worth of Lamps and Shades
At Sweeping Reductions!

Plans which we have just completed necessitate our making important changes within a short time in the locations of both our retail Lamp Department and our Lamp-Shade workrooms. These contemplated changes, together with the receipt of large shipments which were delayed in reaching us, have made necessary at this time a readjustment of our stock and display space.

In order to carry out these plans in the most advantageous manner, we have decided to reduce temporarily our stock in Lamps and Shades to the lowest possible point.

So we are offering to you the newest, most attractive designs of Lamps and Shades at Amazingly Reduced Prices! Among the Lamp offerings are:—

50 Floor Standards at \$8.50 Each

These mahogany standards, one style of which is illustrated herewith, are completely wired, having two pull-chain sockets.

Davenport Lamp Standards—\$15 Values—\$8.50 Each

The assortment of Lamp Shades includes the latest and best in silk and parchment shades.

These extraordinary values are quite in keeping with the high standard maintained generally throughout Barker Bros.' entire stock. And they form but one feature of the many thousands of advantageous opportunities presented by the Fortieth Anniversary Sale and Annual Summer Clearance which is now in progress, wherein approximately \$1,500,000.00 worth of Furniture and Home Furnishings, or nearly one-half of our entire immense stock is offered at Savings ranging from ONE-TENTH to ONE-THIRD.

(Goods upon which the manufacturers require fixed prices to be maintained throughout the country must, of course, be excluded from the Sale.)

UNIONS DEMAND JAP EXCLUSION.

Federation Wants Gentlemen's Agreement Canceled.

Convention Condemns Recent Railroad Men's Strike.

Declares War on Kansas Industrial Relations Court.

(BY A. P. NIGHT WORK.)

MONTREAL, June 16. — The American Federation of Labor, in convention here today, called upon the Congress of the United States to cancel the gentlemen's agreement with Japan and absolutely exclude Japanese and other Asiatic immigration into this country. The exclusion of picture brides also was demanded.

Federation departments and international unions were instructed to co-operate and press this legislation. Declaring that a band of irresponsible agitators are attempting to discredit the recognized organizations in the railway service, the federation unanimously condemned the recent railroad strike, which resulted in the loss of life and property.

The convention also instructed its affiliated organizations to refrain from giving moral or financial support or assistance of any kind to any secessionist movement. Any federation organization giving such assistance is threatened with having its charter revoked.

The executive council was instructed to investigate the desirability of forming an international union of building service employees of America, to include all workers known as janitors, janitresses, scrub women, window workers and watchmen.

The convention adopted a resolution asking the Panama Canal Commission to employ only American citizens in the mechanical department in the Canal Zone.

The convention rejected a resolution that would have established a legal department to serve as a clearinghouse for the defense of all labor organizations against interference in the course of their legitimate trade union activities.

The plan proposed by E. L. Edgerton of Schenectady, N. Y., to have organized labor form with the employers a voluntary arbitration body to settle labor's grievances in the future was rejected. Other legislation along this line will be brought before the convention later, it was announced.

The federation declared war on the Kansas Court of Industrial Relations in addition to the action which condemned such legislation as confiscatory of the liberty and property and a denial of the human rights of organized labor.

The federation instructed its executive council to take such steps as are necessary to support or organized labor in Kansas, Nebraska and Colorado in fighting antislavery legislation to a finish.

GOMPER'S POLICY INDORSED.

The nonpartisan political policy of Samuel Gompers, president of the federation, was unanimously indorsed.

Alexander Howat, president of the Kansas district of United Mine Workers, in an address here today

defied Gov. Allen to enforce his Court of Industrial Relations. "The United Mine Workers," declared Mr. Howat, "will strike whenever they believe they have the right to strike."

"We will show Gov. Allen that he has undertaken a bigger task than he anticipated. Every mine worker in Kansas is willing to go to jail before surrendering his rights as an American citizen."

"Gov. Allen says he is going to be patient until the miners come to their senses. The truth is he realizes that he has a law he cannot make good. He will be patient some more and will be given every opportunity to demonstrate whether or not he can make good."

"We claim he cannot make good," Howat said. Gov. Allen had told the country how he had saved the people of Kansas from freezing by getting volunteers to work the mines. He asserted that during the three weeks that 1000 volunteers were in the mines with 2000 soldiers to guard them, Gov. Allen only produced the same amount of coal that some of the Illinois mines could produce in one day.

"I also want to tell the people," added Howat, "that the coal produced by Gov. Allen cost the people of Kansas \$2000 a ton."

WILL FIGHT TO FINISH.

Howat's address was in support of the convention action in condemning the Court of Industrial Relations, and pledging its support to fight such legislation to a finish. The convention approved Howat's resolution condemning Gov. Allen and his despicable efforts to enslave the working class of Kansas, and finally, the working class of the United States, in prostituting his office of Governor of Kansas to the work of crucifying the working class.

The federation reaffirmed its stand for recognition of the Irish republic amid a great demonstration at its convention today. Resolutions adopted urged that the military forces of occupation in Ireland be withdrawn, and that the Irish people be accorded the right of self-determination.

STEEL INDUSTRY.

The convention authorized the continuation of its organization campaign in the iron and steel industry. The executive council was instructed to call a conference of the international unions concerned in this work, to procure their full cooperation in the campaign.

The recent steel strike was declared a wonderful success by Joseph D. Cannon of New York, member of the national committee of iron and steel workers, in an address to the delegates. He appealed to the federation to aid the 200,000 organized steel workers to prepare for a new strike.

The federation condemned the practice of strikebreakers or strike guards, in control of private individuals or agencies, and wearing the uniform of the United States Army or Navy.

"The uniform of this great nation of free men," the report added, "which was adopted, 'should be everywhere a badge and symbol of human rights and liberties to which the American Federation of Labor is traditionally devoted, and should never be permitted to become the insignia of tyranny or repression as embodied in the practices here complained of."

Reclamation of the civil service and adoption of wage scale commensurate with the skill, training and responsibility involved in the work were demanded in a resolution unanimously adopted by the convention.

The executive council was instructed to take up the work of centralizing, analyzing and disseminating the industrial problems of the nation for the information of organized labor.

Congress was called upon by the federation to provide liberal appropriations for the study of labor and social problems and technical research in all branches of sciences touching the welfare of the nation's people.

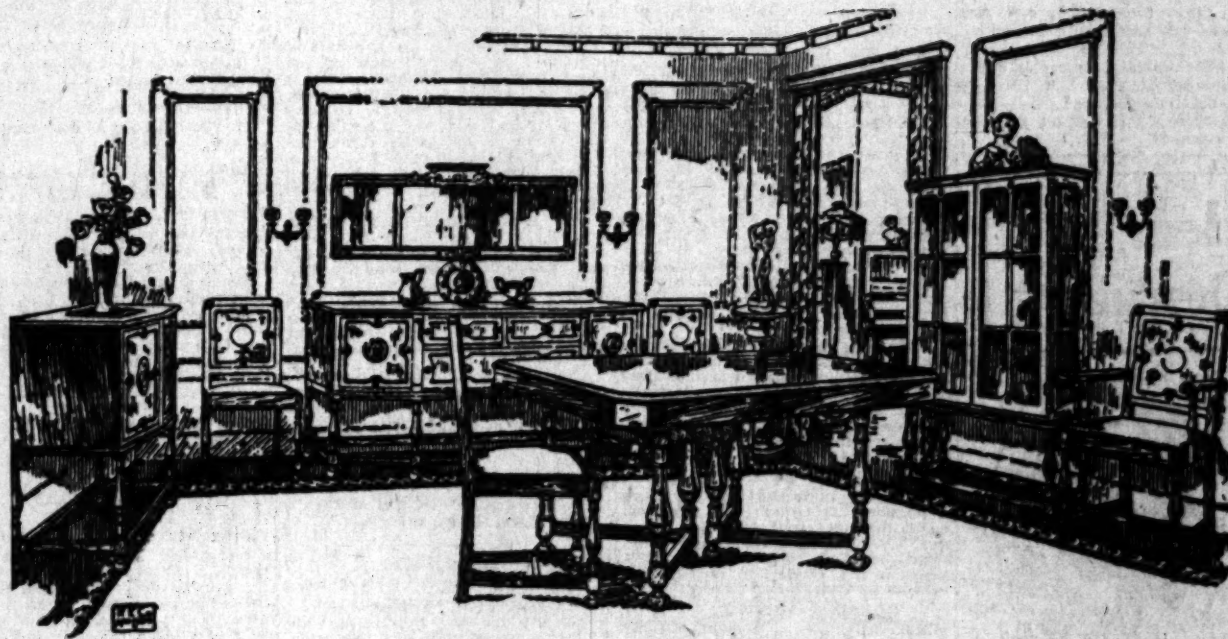

NO HIGHER LIVING COSTS.

Declaring that the cost of living must go no higher, the federation demanded that legislation be enacted at once to curb profiteering. The convention expressed regret that Congress had failed to enact a single constructive measure that would aid in checking profiteering. It instructed its executive council to press upon labor's specific proposals constituting a program of remedy for reducing living costs.

The federation condemned the government for not giving the workers of Porto Rico and Santo Domingo protection from cruel and inhuman exploitation by corporations and other employers.

This image shows a vertical strip of a film negative. The background is dark, and there is a series of white, semi-circular perforations arranged vertically. The strip appears to be a section of a film roll, possibly from a microfilm or a similar format. The perforations are evenly spaced and have a slightly irregular, hand-drawn appearance. The overall image is in black and white, with high contrast between the dark background and the white perforations.

WHAT'S DOING TODAY.

U.S. monument erected at Exposition Park. A monument to the late President Woodrow Wilson, erected by the Los Angeles chapter of the United Daughters of the Confederacy, will be dedicated at the Exposition Park grounds today. The monument is a bronze statue of the president, standing on a pedestal. It is the work of the sculptor, John S. Sponshill.

High school commencement exercises tonight. The Los Angeles High School will hold its annual commencement exercises at the Los Angeles Convention Center tonight. The exercises will be held at 8 p.m. and will feature a variety of musical and dramatic performances by the school's students.

THE CITY AND ENVIRONS.

ATTACKS LEVER LAW.

MERRITT APPEAL DECLARES MEASURE IS UNCONSTITUTIONAL.

Containing seventy-one printed pages, the petition for a rehearing by the United States District Court of the case of the government against Hulet C. Merritt, the Pasadena millionaire, convicted of a violation of the Lever law in hoarding 500 pounds of sugar, was filed in the United States District Court yesterday.

The only new point raised is regarding the asserted unconstitutionality of section 6 of the Lever law, which is declared to be discriminatory in that it excepts farmers and other classes of workers from the operations of the law.

In a recent decision of U. S. District Judge Anderson of Indianapolis, in the coal strike cases, that court held section 6 of the Lever law to be unconstitutional.

Merritt's petition for a writ of review or certiorari is now pending before the United States Supreme Court, and as that body has recessed until October there will be no decision on that point until the coming fall.

MORTIMER SENTENCED. Probation Denied Ex-Policeman Who Helped Rob Chinaman.

In denying probation to Walter E. Mortimer, former police officer convicted by a jury of having had a part in the robbery of Lew Fong Ng, a Chinaman, last March 25, Judge Myers said yesterday that the ex-policeman, he believed, went into the affair fully realizing that it was a crime. Furthermore, the court pointed out that Mortimer had pleaded not guilty and had perjured himself during the trial. The man was then sentenced to serve from one to fourteen years in San Quentin prison.

Are You Pretty Enough? Suppose a Famous Specialist Said to You: I can improve your looks with a minimum of time and effort on your part. The first thing to do is to improve your complexion. If you have freckles, you can be rid of them, or nearly so, in a month.

If you have a dark, muddy skin, you can have it many degrees whiter in a few weeks. If your skin is harsh and dry, you can have it soft and smooth in a short time. If you are subject to sunburn and tan, you can prevent them both by doing the right thing at the right time. If you begin to see the first fine lines that tell everybody you are in your forties, you can delay their deepening into wrinkles.

I'll tell you HOW. And it won't cost you any more than you are spending all the time on your face without getting these results. It won't hurt you, you needn't go into hiding from your friends and very soon everybody you know will be telling you how white and pretty and smooth your skin looks.

All you have to do is buy a jar of FRECKLE-OFF. This cream is made after the formula of one of the world's most famous face specialists.

FRECKLE-OFF, applied regularly at night for a month, will make your freckles fade away. You can keep them from coming back by using it under powder while out in sun, wind or sea. FRECKLE-OFF will whiten any skin, however dark. FRECKLE-OFF, applied regularly at night, will make the skin soft and smooth in less than a week. It takes the place of so-called skin foods. FRECKLE-OFF will prevent sunburn and sebum if applied BEFORE going in sun or sea. FRECKLE-OFF irons out the tell-tale lines and keeps the skin fresh and youthful.

No harm can be done; only good results can follow the use of FRECKLE-OFF by anyone, old or young. It is sold by all the big department stores in Los Angeles, all the sporting goods houses and the best drug stores. It is to be found everywhere at the beaches. Don't take "something just as good." It doesn't exist.

If you can't buy it at your favorite store, send us five and get a jar by post. For any further information, send us a 2c stamp. Freckle-off Company, 924 Black Bldg., Los Angeles.

WILL POLL BAR ON JUDGESHIPS.

Lawyers Launch Campaign to Pick Bench Candidates.

Plan Canvass to Cover All Attorneys in the County.
Myers, Sherk, Hewitt Lead in Preliminary Straw Vote.

The opening gun in a campaign to keep competent judges on the bench in this county, was fired Tuesday night when a dozen representative attorneys met at the City Club and launched a movement which will, in all probability, place the question of judgeships on the ballot in this county on record as to the preference regarding the Superior Court judges now occupying the bench here.

Among those present at the meeting were Eugene Overton, Frank C. Collier, John C. Stick, W. L. Law, Mendel Silberberg, Guy K. Crump, A. W. Sorenson, Kemper B. Campbell, J. H. Moore, Daniel Secher, A. L. Bartlett, Percy V. Hammond, Albert D. Pearce, Isaac Pacht and W. G. Shelton.

They took an informal vote for an expression of opinion as to the Superior Court judges best qualified to remain on the bench, and for a partial list of candidates, preferences were expressed in the following order: Judges Myers, Sherk, Hewitt, Reeve, Jackson and Taft.

STORMY PETREL WARD OF COURT RUNS AWAY.
GIRL OF "MEDICATED BATH" DAMAGE SUIT VANISHES FROM EL RETIRO.

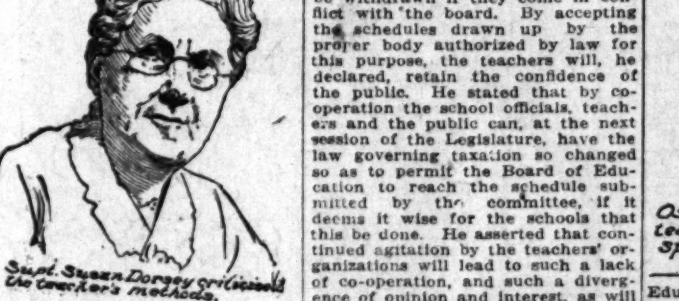

Verna Gorham, the girl whose mother, Mrs. E. C. Watson, last month sued for \$30,000 damages because of injuries she said the daughter had received in being given a "medicated bath" at Juvenile Hall, disappeared Tuesday night from El Retiro, where she was a ward of the juvenile court.

COMPROMISE :: ENDS :: SCHOOL :: WAR.

Teachers and Education Board Both Yield; Tax Rate to Rise.

With a compromise offered yesterday by the Board of Education to the teachers of the city schools in which the original readjustment of salaries was changed so as to give the teachers a blanket increase of \$300 a year in the elementary and high schools, the fight waged by the teaching body against the board came virtually to a close last night.

While another mass meeting of teachers will be held tomorrow in Trinity Auditorium, in which further action will be discussed, conservative members of the teaching staff believe that the only move which will result will be the announcement of plans to ask the State Legislature to increase the tax maximum next year.

The scheduled meeting of the teachers was prefaced by a call from Superintendent Dorey, asking the teachers to the auditorium at 2 o'clock, instead of 4, as they had planned. There they met by Mrs. Dorey, J. E. Menius, deputy superintendent, and Mrs. Grace H. Ashley of the board. The meeting was called to anticipate any action the teachers might take at the last meeting.

TO RAISE RATE.
In order for the board to give the teachers the increase and to meet the increased cost of school operation, it has been necessary for them to make application for an increase in the tax rate over the "margin of safety" to a possible 4 1/2 cent rate. Every effort has been made to keep the levy at 46 cents and this was one of the principal reasons for their objection to a greater increase in teachers' salaries. The increase affects over 3000 teachers.

The meetings of yesterday and tomorrow bring to a close the twelve weeks' fight of the teachers for higher pay. At the beginning of the year, a committee of several of the leading citizens was organized who were to look into the living conditions of the teachers and if possible, to arrive at some salary schedule that would be acceptable to both sides.

THE NEW SCHEDULE.
The salary schedule as it now stands is, in the high schools: First year, \$1800; second year, \$1850; third year, \$1900; fourth year, \$1950; fifth year, \$2000; sixth year, \$2050; seventh year, \$2100; eighth year, \$2150; ninth year, \$2200; tenth year (maximum) \$2240.

POMONA VICTIM SUED BY WIFE.

Mrs. Jewell Asks Divorce on Statutory Grounds.

Wife of Man Who Mutilated Her Spouse Named.

Property Rights Ignored in Formal Complaint.

Mrs. Jennie E. Jewell, one of the central figures in Pomona Valley's mutilation case, yesterday filed suit for a divorce from George M. Jewell, the physical victim of Leonard Hargrave's revenge.

In a complaint prepared by her attorney, Archie D. Mitchell of Ontario, and filed by mail with the County Clerk of San Bernardino county, she charges her husband with a statutory offense with Mrs. Helena Hargrave of Pomona, wife of the avenger.

According to the complaint signed by Mrs. Jewell, her husband misconducted himself with Mrs. Hargrave at the Rosely Hotel, in this city, August 6, 1919, and again at the Palomares Apartments, in Pomona, October 15, 1919, and at various and sundry times following the date mentioned above.

No alimony is asked in the complaint and no property division is requested. The Jewells were married in Michigan in 1919. There are no minor children, according to the complaint.

Packard Pianos
When you hear a Packard Piano, you are glad that men who are artists, have been encouraged to make pianos. For you will delight at the glorious sound that fills the air.
And you will admire the sheer architectural beauty of the piano itself. Yet, you may obtain such a fine piano as the Packard for price well within your reach.
Let us show you what a marvelous piano the Packard really is.

unwilling to show sufficient... SOCIETY... OSBORNE FINDS 'EM WILLING... Tella Councilmen They Should Get More Pay; Propose Charter Changes... Raymond G. Osborne yesterday filed a communication with the Council asking that the members of that body lay before the voters at the August 31 primaries a proposed charter amendment increasing the salaries of the Councilmen from the present \$200 a month to a minimum of not less than \$350 a month. The salaries of Councilmen were originally \$100 a month and six years ago were increased to \$200 a month. "Councilmen," said Mr. Osborne yesterday, "devote their entire time to their jobs in managing a great corporation, the city of Los Angeles, and they should be paid salaries commensurate with the importance of their responsibilities."

STRIKE TRIAL DRAGS... Jury Won't Get Case Until Tomorrow; Dismiss Eight Indictments... The case of the government against the striking Southern Pacific, Santa Fe and Salt Lake switchmen under the Lever Act will not go to the jury in U. S. District Judge Bledsoe's court until tomorrow morning, as at noon today the court will adjourn until Friday morning to enable Judge Bledsoe to deliver an address to the graduates of the University of Southern California during the afternoon. E. J. Emmons of Bakersfield, the last attorney to address the jury in behalf of the defendants, did not conclude his address yesterday. This will be done this morning. The argument for the government will be closed by Asst. U. S. Atty. Palmer.

TOURISTS POURING IN... A temporary shortage of gasoline in the northern States is delaying travel over the Pacific highway, but when this shortage is over it is estimated that approximately 100 parties a day will arrive in Los Angeles from Washington and Oregon. Arizona and Texas are sending fifty parties each day here by way of Parker and Phoenix. That this number will be doubled in two weeks is the statement made by the club. Over the Arrowhead trail twenty-five cars are coming in every day. The Lincoln highway is contributing forty parties a day. In two weeks the touring season will be in full blast, and at this time, and for period covering 100 days, there will be 410 touring parties or more arriving daily in Los Angeles from other States. Thirty requests this week have been received by the club in regard to the renting of homes here.

MANY ARE CALLED.
 Twenty-one different names were voted for in the course of the balloting at the Republican convention and it looks as if there would be an equal versatility of thought in the Democratic gathering. Fully that number of men have been suggested by the delegates thus far chosen and interviewed.

IN CONCERT.
 Senator Harding used to play a horn in the Marion band and Woodrow Wilson used to sing tenor in his village choir. Perhaps Wilson will be glad to leave the Victrola for his successor. The White House is getting to be quite a musical center, but then far it has harbored no one who plays the ukulele.

COMRADES.
 The Social Democrats in Austria have invited the Christian Socialists to form a new cabinet in Vienna. People might wonder what a Christian Socialist looks like, but party names are hardly interpretative any more—at least in Europe, where lions and lambs are often locked in the same folding bed.

THE OLD STAND-BY.
 The Marion Star, which is owned by Senator Harding, does not hesitate to point with pride to the nomination of the Senator as an achievement for the old town. The Star will shine for him until the last armed foe expires. As an apostle of preparedness Mr. Harding hitched his wagon to a Star in the days of long ago.

NOTHING DOING.
 Vice-President Marshall now declares that he wouldn't take the Presidential nomination if it were handed to him in a golden bowl and that he would do anything in the world for Senator Harding except vote for him. The genial Indianan realizes that there are enough who will vote for Harding to make the nomination against him undesirable.

SWEET DEATH.
 A new poet is singing that unless his soul is allowed to develop untrammelled in this life, he wishes to die.
 The cynic might remark that the alternative was simply enough. But we fear our poet wants to die beautifully as he would live beautifully. He wants someone to lead him out in the moonlight and pet him to death with rose petals.

SEEN OF THE SURF.
 Chicago commissioners intimate that the length or modesty of the bathing suits at the park beaches will be left to the consciences of the bathers. There have been girls in the surf of Venice with nothing on but their consciences and very little of that. A girl who is wrapped up in her conscience may still need something more to keep her out of jail.

SOMETHING GREEN.
 The Democrats are expected to declare as their platform for a free and unlimited Ireland and at the same time Mr. Wilson will drop one of his amiable notes to Lloyd George explaining that it doesn't mean anything. How it is that people who want America to keep out of foreign entanglements also want America to make a free republic of Ireland has never yet been explained.

THE SPENDERS.
 According to the farewell number of the Congressional Record the appropriations of the Congress just adjourned totalled \$4,550,000,000. This is more than the combined salaries of all of our movie queens, and if Adam had commenced throwing silver dollars away at the rate of a dollar a minute he would still have a few thousand years of hard work ahead of him to get rid of the pile.

"SOME LESS ORANGERS."
 Mons. Jean Lefebvre has just won distinction with another gude study in the Paris Salon. His subject is of two nude beauties basking under a heavily-laden orange tree. We don't believe the famous French artist intended giving California a free advertisement. If so, we regret to admit he has rather exaggerated the sartorial omission of our lady orange-grove baskers. This is the day of truthful advertising.

ANONYMOUS MAGNIFICENCE.
 The British Chancellor of the Exchequer offers evidence that magnificent altruism is still extant. He is in receipt of two tremendous gifts to the nation, both given anonymously, and each declaring himself a civilian who, for various reasons, was unable to play an active fighting part in the war.

A mysterious "A.M." has presented the national exchequer with \$500,000 in 4 per cent funding loan bonds for cancellation, and "F.T.S." has given \$700,000 in par securities. Both donors have taken effective steps to preserve their anonymity and, according to the Chancellor's announcement to Parliament, their identity is still a complete mystery.

This is tangible patriotism, devoid of personal spectacular glory, and restores one's mind to noble motive and human generosity.

ROWELL'S BAD EXAMPLE.
 About the only hopeful Democratic editorial that has been published in California since the Chicago convention adjourned appeared in the Fresno Republican the day after the ticket was named. Editor Chet Rowell is immersed in gloom. He poses as a Republican; but on most great issues the Democratic party is to him, always right and the Republican party always wrong. Just as soon as the Republican candidates are named he begins hoping for the worst. Despite the fact that he was chairman of the Republican State Committee in 1916, he denounced Hughes for not meeting Johnson that year and predicted that the insult he had given to Johnson would result in the loss of the State. He is now convinced that Harding cannot win and that the Democratic party has a wonderful opportunity to elect another President.

Rowell has never been in real harmony with the real Republican party at any time in his career. He is always donning each cloth and covering himself with ashes for his sins. How much more simple it would be if he would change the name of his publication to the Fresno Democrat and cease campaigning under false colors!

Rowell has already reached the point where he is giving the Democratic party good advice, counseling the leaders as to the most effective method of taking advantage of what has become a Republican blunder. He admonishes the Democratic convention to nominate Hoover and sweep the country, using Hoover as the broom.

But Mr. Hoover has already announced that he is not in sympathy with the principles of the Democratic party and that he would not accept its nomination if offered him. He has telegraphed his warm congratulations to Senator Harding and promised his support. And Hoover is a man of character. He values his word above any political preference and he would not stoop to subterfuge, even to be President of the United States. Rowell is an agent at political disguises; Hoover is not; and while Rowell cannot see any inconsistency in Hoover's accepting the Democratic nomination for President, those who have faith in Hoover and hoped to see him the Republican candidate are fully aware that no situation can develop that would lead Hoover to accept the Democratic nomination.

The trouble with Editor Rowell seems to be that he looks at an American situation through Mexican glasses. Whenever the Republican party names a candidate whom he has not endorsed he wants to bolt, to start a revolution, to bust things up. Because one plank in twenty in the Republican platform is not to his liking he is going to jump to the Democratic party, where nineteen out of the twenty are objectionable. If Rowell were to have his way the country would be in a constant revolt; our motto of revolutions would be equal to Mexico's. It doesn't make much difference what happens, Editor Rowell is an objector and mutineer. He is always campaigning or flitting with some other party, but he continues calling his paper the Fresno Republican. It is a shame to put such contents into a package so labeled. It is an offense to sell mavericks by misrepresenting them as thoroughbreds.

The Times is not in agreement with all the planks of the Republican platform. It respects the eagle language used in referring to the Versailles Treaty and the League of Nations. It believes there was too much of a surrender to the bitter-enders for the sake of harmony; but the Times is not bolting nor predicting party disaster because its views were not held by platform builders. It is a well-known axiom that who tries to satisfy everybody satisfies nobody. The platform is written and adopted, and the Times accepts it because it is one of its twenty planks it is soundly Republican.

Editor Rowell did not condemn the platform, but he viewed with alarm the nomination of Senator Harding because he regards him as a "hopeless reactionary." On what he bases this conclusion is not clear. Reactionary is a term of reproach that was applied by radicals to the group of Republican statesmen who held national offices during the administrations of McKinley, Roosevelt and Taft. But Harding is not of that group. He is comparatively a young man. He is serving his first term in the Senate.

Theodore Roosevelt did not regard Harding as a hopeless reactionary after the bitterness of the 1912 campaign had evaporated; for Roosevelt stumped Ohio for Harding. Rowell preferred another name for the Presidential nominee; and so did the Times. But the Times is not going to bolt the ticket because Hoover is not nominated. It is party dissension that has afflicted the country with eight years of a Democratic administration; and Editor Rowell and his misnamed Fresno Republican are responsible for a part of it. The country is in a chaotic condition. Reconstruction is slow in getting started. An administration of the McKinley type is necessary to make business and industry plant their feet squarely on the earth. We have had enough of disintegration. Cohesion is the one thing necessary. Editor Rowell would do well to include that word and what it stands for in his mental repertoire.

The time has come for a unity of effort to get the affairs of these United States back on the right track. The time has come for a great campaign of construction on the part of the real Republicans of the country. If the nation is to be rescued from the Wilson autocracy it is to be accomplished by an earnest and harmonious support of the Republican ticket—by hard work and militant loyalty. If everybody whose pet candidate was not nominated or whose pet idea was not ratified at Chicago should sulk as Chester H. Rowell is doing there would be no hope of aught but a continuation of high taxes and high living costs, high-handed bossism and high old bell generally, with the Heir Apparent sweating the people and conferring the Order of the Garter on Chet. Editor Rowell has set an awful example for the country of what not to do.

President Ebert has declined to make a try for re-election. The saddle statesman wants to be hitched up to another job.

The Democratic editors do not like the Chicago platform. It would be under suspicion if they did.

The longest-lived man living in Mexico was those who never run for the Presidency.

THE JONES MARINE BILL.

The Jones Merchant Marine Bill, which by act of Congress has now become a law, is an opportune and effective measure to protect the rapidly growing shipping industry of America. It will not only aid the shipping interests of the country generally to meet foreign competition, but will directly benefit the port of Los Angeles. As a result of the bill the Los Angeles-Pacific Navigation Company is preparing to double its fleet plying between this port and trans-Pacific points.

Until recently the American participation in foreign ocean shipping has been small and in many cases Americans have been worsted in competition with shipping companies of other countries. Deferred rebates, refusal of space accommodation, coercion in marine insurance writing and other practices have placed American shipping in many instances at a disadvantage. The Jones bill was intended to correct this condition.

Under the new law the Shipping Board and the Secretary of Commerce are empowered to bar from American ports ships under foreign flags that practice the deferred rebate system, the use of warships and other methods which have been unfairly used against Americans.

The chief protective clause of the law, which provides preferential rail rates, is not without precedent. Japan and Germany have had in effect a scale of inland freight rates on a basis lower, when applied to exports or imports, than that of vessels flying the flag of their country, than the regular rates.

The Jones measure provides for similar preferential proportional rail rates in connection with ships owned and operated by Americans. As a safeguard in case of emergency or scarcity of cargo space the bill gives the Interstate Commerce Commission authority to apply the lower rates to ships under foreign flags.

Under existing conditions there appears to be no danger that the bill will affect the free movement of export or import traffic through Pacific Coast ports for the reason that there is at this time ample American tonnage to take care of the traffic. The building of more American ships for use in foreign trade will, moreover, be stimulated.

The Jones bill stipulates that shipping companies must have all their stock owned by citizens of the United States in order to be considered strictly American corporations. For the purpose of operating ships exclusively in foreign trade the bill stipulates that companies must have at least 75 per cent of their stock owned by citizens of the United States.

It is also provided that regulatory control be placed in the hands of the Shipping Board to facilitate enforcement of the law, and to make it possible to change rules and regulations for the purpose of dealing with unfair competitive methods or conditions arising in connection with any particular trade route.

Six years ago only 10 per cent of the world's merchant marine was operated under the flag of the United States. At this time the American Merchant Marine represents 22 per cent of the total tonnage. The Jones bill is one of the most important steps toward constructive marine legislation taken since the disappearance of American clipper ships from the high seas.

There is opposition to the bill in some shipping circles in San Francisco and Seattle for the alleged reason that when preferential inland rates are restricted only to American vessels the foreign vessels will be routed direct to New York via the Panama Canal with the exception of an occasional vessel to take care of passenger service.

The chief lines affected are the Toyo Kisen Kaisha of Japan and the Java-Pacific, a Dutch line. Opponents of the Jones bill argue that when the American marine is brought to an operating basis the Americans will find a strong coalition against them in these countries. Some San Francisco shipping men in opposing the bill say that, while only two ports, San Francisco and Seattle, will be adversely affected by the bill, the loss there will be extensive.

Another viewpoint with reference to San Francisco and Seattle shipping is that the

bill is more likely to promote the business of American shipping in those ports as seafarers that of foreign-owned ships. It is driving the business away altogether. However, the important problem now is to take care of our own opportunities and, while no American is inclined to seek unfair advantage, American shipping ought to be and can be protected. Los Angeles shipping men do not believe any losses to the Pacific Coast will result from the enforcement of the Jones Act.

FOURTH PARTY TALK.

It is possible that La Follette, Walsh and Hearst really believe that they can mobilize enough of the forces of discontent to capture the Presidency in a four-cornered race. La Follette has illusory views about the numerical strength of his pro-German support; Walsh thinks he is a great spell-binder and that a tour of the country would enable him to awaken radical sentiment to a fever heat; Hearst clings to the belief that he can mold public sentiment through the propaganda of his chain of newspapers. When these three lump their claims the total seems to them to represent enough votes to swing the Presidency.

Starting new parties is a popular diversion of campaign years. The American people are so constituted that they criticize even what they admire. A great many talk against the government who would fight for it if its safety or stability were imperiled. Whenever a national convention is held there are many losers and a single winner; and to listen to the dark prophecies of the losers is to become convinced that the ticket selected can never win.

Hearst is always to the forefront of new party movements. He sends his staff of trained clergies to the Republican and Democratic conventions for the sole purpose of stirring up trouble and mobilizing discontent. He sometimes heads the movements himself, provided they do not threaten to become too expensive. Hearst and La Follette are in the element when it comes to awakening distrust and fomenting discord; and they seem to have concluded that the Democratic convention has't going to do anything worth while, so they might as well get their new party started at once.

A combination between Hearst and La Follette is a natural tie. They are united in their sympathy for Germany and their common dissatisfaction with American institutions. They both favor the operation of the railroads by the employees, under the general direction of the government. They regard the right owners as profiteering middlemen and seek to eliminate them. Senator Walsh is himself a member of a labor union and he is suggested as Vice President by reason of his influence in union-labor ranks.

La Follette and Walsh, with Hearst for campaign manager, would give Debs a close race for last place. It is possible that some of the Fourth Party talk is intended to intimidate the San Francisco convention; but if a Fourth Party were to be formed there would be no occasion for Republicans to worry. It would poll many votes that would go to the Democratic party if it were not in the field; and its leaders are so well known to Republicans that they would get but few Republican votes. Just as all signs fall in dry weather, so do all Third and Fourth party movements fall in a Republican year.

TAFT APPROVES PLATFORM.

Says Concession to Bitter Enders on League of Nations is Only One of Verbiage.

BY WILLIAM HOWARD TAFT.

The Republican platform and the assured Republican victory mean that the United States will enter the League of Nations with the Lodge reservations.

It would have been better to have been more specific and outspoken in the Republican platform. It would have been better to have pledged the party in terms to the League with the Lodge reservations for reasons already stated in these columns; it would have aided instead of injured the assuring prospect of a Republican victory, and it would have removed the issue largely from the campaign between the two great parties. But fear of a bolt by Senators Johnson and Borah brought a compromise in which the merely verbal concession was made to the bitter-enders of not using the word "league" or "reservation" in the plank describing the international association the party pledged itself to bring about; although nothing but an approval and promise of the League with Lodge reservations can be inferred from the resolutions.

Mr. Murray Crane brought matters to a head in the resolutions committee by making a plan for approving the League with proper reservations. He was closely seconded by Mr. Ogden Mills of New York. The discussion grew heated. Mr. Lodge appeared and threw his weight against so specific an approval of his own course by threatening to go on the floor of the convention to oppose it.

Good judges were of the opinion that the more direct course would have been accepted by a majority of the committee had not Mr. Mills, while supporting Mr. Crane, drawn from his pocket the draft of a plank prepared by Mr. Root which he said accomplished the same purpose. Their opponents found therein no express approval of the League and reservations in terms and accepted it. Mr. Root is in favor of the League with the Lodge reservations and such improvement as in the judgment of the League as is indicated in the plank adopted. He thus drafted a plank which, without promising in terms entry by the United States into the League with the Lodge reservations, commits the party to every effort to secure such a result.

Let us go back in the history of the League. When Mr. Wilson brought it home first, Mr. Root wrote a letter to Mr. Hays at the request of the latter in which he commented on the League and suggested certain amendments. He then approved Article X, but thought it should apply only for five years, when there should be a revision of the boundaries therein justified against forcible invasion. He recommended a court to pass on justiciable questions as contained in the program of the League to enforce Peace and defined what should be regarded as justiciable questions. He criticized the omission in the League of a more satisfactory declaration in favor of the development of the principles of international law and justice by judicial decision. He approved, however, with emphasis, the machinery provided in the League covenant for reaching a recommendation for settlement of nonjusticiable controversies. Mr. Root's definition of justiciable controversies was incorporated in the amended League covenant, but only in an advisory way and not as a basis for the fixed jurisdiction of an arbitral court. In a subsequent letter after the treaty was formally submitted Mr. Root changed his attitude as to Article X and favored a reservation saving the United States from any binding obligation under it, and that is what the Lodge reservation effects.

The present League covenant contains a provision directing the Council of the League to prepare a plan for the establishment of a court for the League. There is every reason to believe that the English plan for a League contained a provision for an international court with fixed jurisdiction to pass on justiciable questions and that the adoption of this feature was prevented by Mr. Wilson. After the League was organized without the membership of the United States Mr. Wilson exercised no influence and thus the League was able to select Mr. Root as a member of a strong committee of internationalists to prepare a plan for the League for the League. Mr. Root has accepted and is now at The Hague, where the work is being done.

When these facts are considered and the resolutions of the Republican platform are interpreted in the light of them, they leave no doubt that the party is not declaring against the League with the Lodge reservations, but that their pledge cannot be satisfied by the Republican platform and a Republican Senate without ratifying the League with substantially the Lodge reservations. With a Republican victory there is every reason to anticipate that enough of the Democratic Senators who held out because of the great opposition to the League will approve the League with such reservations.

The first paragraph of the resolutions on the League reads as follows:

The Republican party stands for agreement among the nations to preserve the peace of the world. We believe that such an international association must be based upon international justice and must provide methods which shall maintain the rule of public right by the development of law and the decision of impartial courts and which shall secure instant and general international conference whenever peace shall be threatened, so that the nations pledged to do and insist upon what is just and fair may exercise their influence and power for the preservation of peace.

This describes exactly what the League of Nations with the Lodge reservations does, except as the judicial features of the League need improvement. It declares for an agreement among nations to preserve the peace of the world. How? First, by provision for judicial settlement of disputes capable of such settlement.

The second paragraph of the resolutions reads as follows: "The international conference whenever peace is threatened of nations PLEDGED TO DO AND INSIST UPON what is just and fair, and to exercise 'their influence and POWER' for the prevention of war. This means the recommendations of fair compromises in nonjusticiable controversies by the League of Nations, secured by their pledged influence and the use of their influence and power. It is Article XVI and preceding articles strongly approved by Senator Root. The second paragraph introduces the reservation of Article X as follows:

We believe that all this can be done without the compromise of national importance, without depriving the people of the United States in advance of the right to determine for themselves what is just and fair when the occasion arises and without involving them as participants and not as peace makers in a multitude of quarrels the merits of which they are unable to judge.

Article X bound the United States with the other members to uphold against forcible aggression the territorial integrity and existing political independence of every member of the League with force of arms if need be and without regard to the merits of the controversy. The national honor and the minority reservation of the Democratic party in this positive obligation and left it to Congress to decide its course when the occasion arose, and this is just what the above words provide.

The platform continues to allude to Article X as follows: "The covenant signed by the President at Paris signally failed to accomplish the great purpose and contained no provision for the protection of independent people, but certain to produce the injustice, hostility and controversy among nations which it proposed to prevent."

RIPPLING RHYMES.

ALL ALIKE.

The times are punk, the prospects yellow, conditions are a shame; and each man roasts the other fellow and says he is to blame. I throw some dormicks at my neighbor because he talks all day; he sidesteps hard, productive labor, puts up a helpful hay. But when I say he is a traitor to useful industry, he says he knows one who is greater, and shies a brick at me. While I sit writing up this drab ape, my neighbor wots and weens, the country's pressing need is cabbage and turnips and string beans. If I'd get land and grow upon it I'd crop of headless prunes (would help out more than any sonnet, than any rippling tunes. Then he resumes his elocution, hands out the air that's hot, and says we'll have a revolution before we know what's what. Our lives would soon be rich and mellow, the times be smooth as wax, if we could make the other fellow get down to old brass tactics. But when we urge him to get busy, he goes to earn the price, he says, with nerve that makes us dizzy, "Just take your own advice."

WALT MASON.

The voters and taxpayers of the city are to be given the opportunity of expressing themselves on the issue of bonds in the sum of \$1,500,000 for the erection of a soldiers' and sailors' memorial on Normal Hill. The election will occur in August. It is for the people who have to pay the bill to decide.

AIN'T IT JUST SO?

Professor Dink Beeson says that he seems to be something about the creative instinct that makes it dissatisfied at times with its product and he wrote a talk To give to his students the last day of school and after he got it written up he found it was a Ly tale thing and he shut it up in his desk and started down town, and he met a friend who is in the movies and the friend told him they were giving a new Picture a tryout that he had Spent twenty thousand on and it Would never go over in the world; and the Prof was still bluer and He went back home to burn his Bible open at the page where it Told about the Lord repenting that he had made man and the Prof was so dejected that if he had been sometimes dissatisfied with results, mere man Hardly expect to dash off a "Get-Tyburg Address" or a "Man With a Camera" every time he Sticks his fingers to a Typewriter.

THREL FALL.

We'll Say So.

Los Angeles has grown—of course; and a year from now it will be larger, and in ten years, larger still; and it will continue to grow as long as Southern California retains its climate, and people can go to Los Angeles and earn their board while wallowing in the climate.—(Seattle Post-Intelligencer.

SHIPRIGGER WAS FORCED TO QUIT

Rheumatism Knocked Him Out, Says John H. Morgan.

But Is Back on Job Every Day Since Taking Tanlac.

Gives Statement Hoping It Will Help Some One Else.

"I only wish that I had run across Tanlac fifteen years ago, for I would have been saved that many years of suffering," said John H. Morgan, a well-known employee of the Moore Shipbuilding Company, living at 983 Seventh Street, Oakland, Cal.

"My stomach was in such an awful fix," continued Mr. Morgan, "that if I ate the least bit of breakfast or even drank a glass of water, in a few minutes I became so nauseated that I couldn't keep it on my stomach. Gas formed on my stomach and kept me in distress for hours after eating, and I also suffered terribly from constipation. My sleep was always restless and broken, and in the mornings I would get up feeling just miserable. About two years ago I got a fine position in the South Sea Islands and went down there, but muscular rheumatism set in and my condition became so much worse that I just had to quit my work and come back, very much discouraged. I traveled a great deal and my condition was so bad that I just took every kind of medicine I heard of, but none of them did me any good.

"I read about Tanlac and decided to give it a trial too, and I want to say right now it certainly has done the work for me. I'm just now on my fourth bottle and am eating three big meals every day, and enjoying every mouthful of my food. The nauseating spells are all gone, and I'm never troubled with gas, constipation, or distress of any kind. I sleep good and sound, and get up in the morning feeling fine. I'm a ship rigger and can just work steady all day long now, and you know that's real work. I am certainly glad that I ran across Tanlac, and I want to give this statement in hopes that it will help someone else who suffered like I did.

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Stores.—(Advertisement.)

Fruit Growers and Packers
Discuss Their Problems.
Powell Urges Careful Picking
and Better Packing.
Says Carelessness Means Big
Loss Daily to Industry.
Careless or incompetent field in-
spectors were severely arraigned
yesterday at a meeting of 800 citrus
fruit growers and packers to dis-
cuss lemon and orange decay in
symphony hall, delegations being
present from every citrus-growing
district in Southern California.
General Manager Powell of the
California Fruit Growers' Exchange
pointed out that hundreds of car-
loads of lemons were held back
from shipment at the proper time
and that they are selling at low
prices now. He voiced his disap-
proval of letting the fruit hang on
the tree for the sake of bigger sizes,
stating that picking every thirty
days should be the rule.
"We need a serious reconsider-
ation of picking operations," he de-
clared, "we must pick at the right
time and ship at the proper time.
The community is hopeless which
attributes lemon decay to the char-
acter of the fruit. You growers
and packers may as well know that
the inherent weakness is not in the
fruit. It is in another place. We
need a revival of the appreciation
of careful handling in the packing
of fruit."
Mr. Powell and C. C. Teague
gave it as their opinion that many
associations lose money because of
carelessness in picking and packing.
In some cases, they declared, field
inspectors are incapable of detect-
ing stem punctures and clipper cuts,
while in other cases associations
pack fruit while it is still damp.
Both experts agreed that sound fruit
will stand up for a long time if
shipped under fair conditions. Mr.
Teague came out strongly for better
inspection in the field gangs, and all
the speakers agreed that the grow-
ers should insist on the best pick-
ing.
Mr. Powell pointed out that one
association suffered an 8 per cent
decay in shipments. Whereas a
neighboring association, exercising
more careful methods, shipped a
similar number of cars and suffered
only a 4 1/2 per cent loss from decay.
The former organization getting
\$2.95 a box, while the latter received
\$3.83 per box.
In conclusion Mr. Powell stated
that one shipper, who has experi-
enced only a 2 per cent decay on a
very heavy lot of fruit this year, as-
serted he accomplished the result
because he did every day that which
he knew had to be done. After
calling attention to the fact that
noticeable decay in shipments
means a discount of from \$1.50 to
\$2 a box, Mr. Powell gave it as his
firm conviction that the cooperative
association could well afford to pay
5 cents more per box to secure
proper inspection and better pack-
ing—methods and thus elimi-
nate losses now suffered because of
decay.
The matter of adopting a uniform
picking sack and improving the
fruit clipper was discussed, but no
definite conclusion in that regard
was reached. Mr. Teague, who is
the owner of the world's greatest
lemon grove, discussed picking and
packing from various angles. He
stated that the bonus system in
picking is productive of inability
due to carelessness in handling fruit,
but that it can be successfully op-
erated under proper inspection.
SON SEEKS ESTATE.
Three Million Dollars in Property
Prompts Subpoena Issue.
U. S. District Judge Trippet yes-
terday signed an order to the United
States Marshal in New York to serve
a subpoena upon Miss Millie Raf-
fior, defendant in an action brought
by her brother, Louis A. Raffior, a
laundry foreman of the city, to pre-
vent the Allen Property Custodian
and United States Treasurer from
turning over to her certain property
and money seized by the govern-
ment that belonged to the dead fa-
ther of the parties.
The local man was cut off from
the father's \$2,000,000 estate, but
the sister has been sending him an
allowance monthly, it seems. The
most of the property is located in
New York and consists of real es-
tate. The defendant sister is ex-ec-
utrix of the estate of the father, who
made the most of his money in this
country in the manufacture of toys.
The latter, according to the decla-
ration of the son, renounced his na-
turalization as an American citizen
and returned to Germany, where he
died during the late war.
FOR PORT BRIDGES.
Harbor Commissioners Propose Ex-
penditure of over a Million.
Plans for the long-desired draw-
bridges across the West Basin chan-
nel at the harbor connecting the
mainland and the Wilmington dis-
trict and for the highway trestle
drawbridge across the East Basin
channel, linking Terminal Island
with the mainland, have been sub-
mitted by the Board of Harbor
Commissioners to U. S. District En-
gineer Downing, who will hold a
public hearing on the application
at rooms of the commission at the
City Hall, at 10 a.m. July 28.
The proposed Terminal Island
drawbridge is to be seventy-five feet
wide, with a draw span of 200 feet
across Cerritos channel, connecting
Los Angeles and Long Beach har-
bors.
The bridge across the West
Basin, it is proposed, will be 141
feet long, seventy-five feet wide,
with a draw span of 200 feet. The
draw bridge proposed by the har-
bor commissioners for the two draw-
bridges would cost about \$1,225,000.
CARS ARE NEEDED TO
CARRY TOTS TO SHOW.
A request for help from motorists
who can spare the use of their cars
Saturday morning was made yes-
terday by Will Cressy and the Ro-
tary Club, who are to stage an en-
tertainment at the Orpheum for the
children of the various Los Angeles
charitable institutions. Cars are
needed to carry the children from
the various homes to the theater
and back again at the close of the
performance.
Those who can help transport the
children are asked to communicate
with L. V. Starr, chairman of the
transportation committee, sometime
today at 1150 South Figueroa street.

DIVORCE:: CASE:: MIXES:: RACES.
Indians' White Wives and Squaw Involved
Kokomo Oil is Fuel for Melting Pot.
Left to right, Mrs. Helen Dickey, divorce complainant; Mrs. Marie Boone,
her Osage Indian sister-in-law, and Mrs. Nell Rogers, wife of an-
other red man.
A WHITE woman who married
an Indian and was unhappy,
the sister of the Indian, and a
second white woman who is living
happily with an Indian husband,
were the unusual elements in the
Dickey divorce suit, tried by Judge
Taft yesterday and submitted.
The unhappy wife is Mrs. Helen Dickey,
who married John T. Dickey, a
member of the Osage tribe of In-
dians. He has an income from oil
leases of \$12,000 a year. Mrs. Marie
Boone, sister of Dickey, and Mrs.
Nell Rogers, whose husband, also an
Osage Indian, is good to her and
enjoys a handsome income, were her
witnesses.
Mrs. Dickey stated that her In-
dian husband, who weighs 250
pounds, has been intoxicated several
times a month, has a violent temper
and has been mean and abusive. He
threw household utensils at her, she
said.
Mrs. Boone testified that her
brother was addicted to liquor and
was abusive to his wife.
"She came to my house a nervous
wreck," she said. "I saw him strike
her a number of times."
Mrs. Nell Rogers, young and at-
tractive, declared Mr. Dickey is a
drinking man.
"I have less sympathy for the
woman in the case," said Judge
Taft, "because she is intelligent and
knew what she was undertaking. She
knew she was not getting a flowery
bed of roses when she married an In-
dian. You are familiar with current
history?" he asked Mrs. Dickey.
"Yes," was the reply.
"You know an Indian lets the
women and the horses do the work?"
"Yes."
"You know an Indian has the
same regard for his wife that he
has for his dog?"
"Would you live with your hus-
band again?" she was asked by her
attorney, Joseph Musgrave.
"I would not; he is mean and
abusive; I cannot please him," Mrs.
Dickey replied.
"I guess she is right," said the
court; "she cannot live with him."
Mrs. Boone testified that her
brother had another wife whom he
married when he was intoxicated.
"He never loved her and got a
divorce," she explained.

CITY PLANNERS
HEAR OF TASKS.
President of Council Speaks
at First Meeting.
Temporary Chairman Elected
and Committee Named.
Ordinance Terms Attacked as
Being "Studied Insult."
The new City Planning Com-
mission held its first meeting last night
at City Hall with thirty-two of the
fifty-one members present. A. G.
Barlett was elected temporary
chairman, and G. Gordon Whitall
temporary secretary, and the
Executive Committee, together with
Mr. Bartlett, Judge Stephens, Mrs.
Werna A. Coble, Robert Wankowski
and W. A. Spaulding were appointed
a committee on permanent organiza-
tion, to recommend committees and
in outlining a program of action.
The first meeting was not entire-
ly one sweet song. Mr. Spaulding
protested vigorously against that
provision of the ordinance creating
the commission which vested in
the Executive Committee the right
to select the permanent officers of
the commission.
"It looks to me as if the cards are
stacked, if the Council is not will-
ing to permit this commission to
select its own officers," said Mr.
Spaulding. "It is humiliating for a
citizen to serve under these condi-
tions. It is a studied insult."
Judge Stephens, William Mead
and other poured oil on the troubled
water, and Mr. Spaulding finally
withdrew his motion to send the
ordinance back to the council.
President Workman of the City
Council in calling the meeting to
order said:
"This commission has an im-
portant task to perform. I believe
that by the time the next census
comes we shall have a population
of 1,000,000 or more, and we must
start now to solve these problems.
We have no public buildings of
which we are proud. Our street de-
velopment needs to be planned sys-
tematically. The zoning problem is
most important. We must look for-
ward and plan for the time when
the city and county governments are
consolidated. You are to study all
of these great questions which are
most vital to the city's development,
and I know that as a representa-
tive body of men and women you realize
the responsibility resting upon your
shoulders in guiding city growth."
The Organization Committee will
hold its first meeting on Monday.
YEGGS WALK RIGHT IN.
Daylight Burglars Make Away with
Loot While Neighbors Watch.
Jewelry and clothing valued at
about \$1000 were the loot secured
by a pair of daring daylight bur-
glars from the home of Mrs. O. T.
Helpling, 1114 East Forty-fifth street,
yesterday, while several neighbors
looked on. From what the police
were able to learn, two men rang
the front-door bell of the Helpling
residence and then walked into the
place. When they left they drove
away in an automobile.

Why Trifle With Green, Unripe Drinks?
Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences.

There is a tendency today to cheapen and hasten beverages to meet a quantity demand.

Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment.

The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today.

Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air.

The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist.

When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach.

Drink Schlitz today. The Brown Bottle protects it.

Children Cry For
Fletcher's
CASTORIA

A Word About Truth.
"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.
From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.
All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.
And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.
Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little-ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrup was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

CRUCIBLE DECLARES DIVIDEND ON COMMON.

NEW YORK, June 16.—A stock dividend of 10 per cent was declared on the common stock of the Crucible Steel Company at a directors' meeting at Pittsburgh today. It is payable July 1, 1930.

In a statement by Chairman Williamson, the directors stated that this extra dividend was in accord with the policy outlined at a special meeting of the board held in New York last week. It was stated that the surplus "belonged to and was to be distributed to the common stockholders."

A cash dividend of 2 per cent also was declared on the common stock, with the statement that the company had been "in the money" for the past several years.

PRODUCE IN ACTIVE DEMAND; MARKET FIRM

NEW ONIONS SLIGHTLY WEAKER; TOMATOES, LETTUCE AND CHERRIES ADVANCE

For the majority of the leading lines the local produce market remained firm and unchanged during yesterday's session. Throughout the day the demand for all varieties of produce was active and country offerings, which were scarce in most cases, were readily absorbed by peddlers and retailers. Arrivals by rail, however, were in fairly good supply, and the undertone of the market was slightly better. The market was slightly better.

HAPPY PILGRIMS POUR INTO CITY.

Mere Merry Shrine Caravans Bring Fezzes from East.

Imperial Council Wayfarers Find Prime Oasis Here.

Yet Others Due on Journey to Portland Meeting.

Bringing with them a spirit of care-free joyousness mixed with sufficient quantities of jazz and of curiosity about new sights and sounds to make a proper recipe for an unfailing gloom chaser, delegations of fest-topped Shrine caravans continued to unload from special trains in Los Angeles yesterday on their cross-country trek to the forty-sixth session of the Imperial Council, A.A.O.N.M.S., at Portland, Or. Members of Al Malakiah Temple furnished added stimuli for all the visitors' high humor. Throughout the day automobiles left headquarters at the Chamber of Commerce and carried the bands, patrols and chanters of the Shrine pilgrims to various interesting sections of the country. Many of these who live where there is a dearth of mountain scenery were taken to Mt. Lowe, others who were keen for the salt air of the sea were treated to a trip to Catalina Island, and there were numerous delegations who, after serenading various city offices, declared that Los Angeles is good enough for them.

During the earlier part of the week delegates arrived from the Middle West and East. Yesterday's arrivals hail from the Sunny South. They are Acca Temple, 175 delegates from Richmond, Va.; Kosair Temple, 150 delegates from Louisville, Ky.; and Alzafar Temple, 350 delegates from San Antonio, Tex. Scheduled to reach the city today are Alea Temple, 100 delegates from Savannah, Ga., and Zamora Temple, 150 delegates from Birmingham, Ala. This is the first of Shrine caravans that will reach Los Angeles made up of representatives of India Temple, 15 delegates from Oklahoma City.

Los Angeles has proved to be an unusual oasis on the trek to the north coast State, especially to the Lu Lu aggregation from Philadelphia. When they were questioned concerning the liquid status of the Quaker town a saddened expression was seen to come over the faces of the Lu Lu delegates at the Chamber of Commerce and they hesitated to reply. But it was noticed by the reception committee that the Lu Lu representatives were heavy imbibers of the orange juice that was served to them in punch bowls. Innocent bystanders who partook of the California beverage failed to find a kick. The Philadelphia, however, strongly approved of the orange juice and declared, "You never know."

Kosair Temple, patrol from Louisville, Ky., gave a public concert at the Chamber of Commerce last night. Tomorrow the day they serenaded The Times with the music and the songs of Dixie. To the time of a symphony jazz tune they sang:

"I want to go back to the south-land. The place where the skies are so blue. Where everyone greets you with glad hand And tenders a welcome to you. Though you may wander o'er this world everywhere You'll never find another spot to compare. That's why I want to go back to the south-land. Back to that dear Dixie land." To date 2192 Shrine members from eastern and southern cities have visited Los Angeles and vicinity on their journey west. Representatives of twenty-two temples in all more than 3200 delegates, will stop off at Los Angeles on the trip eastward from Portland, beginning the 27th inst.

The Council yesterday gave Councilman Cowan permission to use the Council automobile in entertaining fellow-Shrine members.

"The biggest city in Texas sends the biggest delegation," is the slogan of Alzafar Temple of San Antonio.

The San Antonio delegates arrived at 10 o'clock in the morning in a special train of sixteen standard sleeping cars, two diners and two baggage coaches. They will remain in Los Angeles until Friday morning at 11:30 o'clock. The San Antonio crack patrol is captained by Chester Rice, and C. E. Wiscup is leader of the thirty-eight-piece Alzafar Band, which serenaded The Times last evening. The Alzafar special train boasts that, with the exception of the sleeping-car porters, every person aboard, from passengers to train crew, is a Mason.

DANIELS COMING ON "SUB" BASE PROJECT.

GOVERNMENT MAY GET FIVE ACRES QUICK PLANTING TO USE FOR PLANT

Secretary of the Navy Daniels will arrive in Los Angeles one week from today and Mayor Snyder will entertain him at a luncheon to which will be invited members of the harbor committees of the Council and Chamber of Commerce and prominent citizens, at which meeting the will be conference with the Secretary concerning the proposed submarine base at the harbor.

The Secretary expects to arrive at the harbor on board the Navy Mexico, flag ship of the Pacific Fleet, and he wired the Mayor yesterday that he desired to confer concerning the proposed base, which has been recommended by Mr. Daniels and his board of naval officers and now only needs the approval of the House and Senate, a committee from which will arrive here in November to inspect the proposed site.

During the conference the approval of Secretary Daniels will be asked to a plan proposed by Harbor Engineer Griffin, which will give to the submarine base site an additional five acres which it had been agreed in 1917 should be used by the city for the site of a sewage disposal plant. The plan was written out by Maj. Griffin the plant is to be built outside the breakwater, so that the sewage after being handled at the plant can be turned directly into the open ocean instead of into the harbor, as under the former plan.

ONE SPUD WILL BECOME BUSHEL.

Magicians to Take Slight-of-Hand Trick at High Cost of Living.

The profiteer is going to get it in the neck tomorrow night, Harry G. Cooke, president of the Los Angeles Society of Magicians, says that at the annual banquet of the organization at the Union League Club tomorrow night, some of the slight-of-hand experts are going to take one spud and make a bushel of potatoes out of it.

This banquet is an annual affair arranged by the magicians for the entertainment of themselves and their wives and friends. After the vanda have been put away an informal program of magic will be presented by Harry G. Cooke, Floyd G. Thayer, Dana Walden, Samuel Robinson, Homer D. Miller, Frank Fewins, Glyndon Smith and King Stanley. Mr. Cooke, president of the organization, performed before President Lincoln once and was later commissioned as a private scout by him.

TO TELL HOW GROCERS INFLUENCE HIGH COST.

CITY CLUB ALSO WILL HEAR DOCTOR'S VIEWS ON JAPANESE IN STATE.

What Los Angeles retail grocers have to do with the high cost of living here and what element of progress or hindrance to American commerce the Japanese in California constitute will be told at the City Club tonight at 8 o'clock by Asst. Atty.-Gen. John Atwood of Washington, Dr. John L. Pomeroy of the county health department, Jules V. Reviere and Dr. Aymer Harding, representing the Better American Federation of California.

Asst. Atty.-Gen. Atwood will detail the government plans for reducing the high cost of living, taking into consideration the disposition of the producer, wholesaler, retailer and every phase of the grocery business relative to the price the consumer must ultimately pay. Dr. Pomeroy will confine his address chiefly to what the Japanese business man means to California, and Jules Reviere will explain the retail grocer's side of the question. It is estimated that several strong resolutions pertinent to the general status of the Japanese in Los Angeles-commercial life will be passed.

FOR NARCOTIC CLINIC. Upon request of Health Commissioner Powers the Finance Committee of the Council yesterday voted to recommend to that body that two additional physicians at a salary of \$100 a month each be employed at the narcotic clinic, to properly examine the drug addicts who apply for treatment.

BRING FACTORY BRANCHES HERE.

City Survey Will Determine Production Shortage.

Local Plants Will be Asked to Increase Output.

Then Deficit Will be Made Known to Easterners.

A movement designed to interest large eastern manufacturers in the industrial advantages of Los Angeles, to the end that branch factories may be established here to adequately supply local consumers with certain commodities now produced locally in insufficient quantities, was inaugurated yesterday at a meeting at the Chamber of Commerce of representatives of the Purchasing Agents' Association of Los Angeles, with A. G. Arnold, manager of the industrial department of the chamber.

Before any attempt is made to bring eastern manufacturers here a survey of production will be made, to protect local industries. Where local output is sufficient to meet the demand, a record of that fact will be made. Where it is insufficient, local manufacturers will be urged to increase their capacity before steps are taken to establish additional production units from the East.

Eastern producers will be dealt with directly, where factory branches are needed and it is expected that new industries will be drawn here by convincing figures showing the actual consumption of certain commodities in this city, which has become the largest on the Pacific Coast. Attention will be called to the present purchasing power of Los Angeles, of \$5,000,000,000 a year, a figure which is ever increasing.

It was pointed out at the meeting that many supplies, such as grass, cotton and burlap bags, electrical equipment, shafting, pulleys, screw machine products, cotton fabric, waste, zinc products, sheet iron, meters, regulators, motors, control valves, are not supplied here in sufficient quantity. This lack, at times has seriously handicapped local consumers.

Stimulus has been given to the movement inaugurated yesterday by the recent announcement that the Eastman Kodak Company, will establish a branch warehouse here in which a stock of 10,000,000 feet of raw film will be kept available for purchasers at all times. Those attending the conference with the chamber representatives included: W. C. Wickersham, N. L. Morse, E. E. Arnold, Frank Anderson, L. P. Burgess and R. G. Currier. A permanent committee composed of these in attendance at the meeting has been named to carry out details of the plan.

The Story of Modern Bread Making—Chapter IV

PURE WATER In Bread-Making

THE use of impure or contaminated water in making bread is of course dangerous to health. Water may be highly poisonous due to the presence of sewage contamination, or of salts of lead, iron, or copper.

But the scientific baker goes farther than the mere insuring of clean and non-poisonous water. All natural waters contain many substances in solution. Some of the salts which occur, such as gypsum, for example, possess antiseptic properties and would check the fermentive action of the yeast. By a scientific process

of treatment the deleterious salts are extracted and the water used in our dough rendered pure, as well as standard from day to day.

Analysis of the water we use shows the presence of only such mineral salts as are beneficial both in baking and as an element in food.

It is of prime importance to you to know whether pure water is used in making the bread you eat. Most large modern baking plants exercise care in this regard—but it does not follow that you do so. Buy **HOLSUM** Bread, and you will be taking no chances.

Your Pocket Is Robbed by the Other Man's Fire

A FIRE is not always merely a personal calamity. Blocks of property are often wiped out. Scores of lives are endangered.

A fire is a public loss. It reduces the per capita wealth of a community, raises the tax rate, increases fire insurance premiums, and in many indirect ways seriously affects every member of a community.

Fire Detection Service reduces the hazard of fire to a minimum. At the first outbreak of fire upon F. D. S. protected premises, infallibly and automatically a report is sent in to A. D. T. operations on duty 24 hours a day in the A. D. T. central stations. The fire department is immediately summoned, arriving in time to prevent all but negligible losses.

The unceasing action of Fire Detection Service is made certain by constant human supervision and continuous electrical test of all detection apparatus.

The operation of Fire Detection Service is described in detail in an illustrated booklet entitled, "Curing the Power of Flame," sent free on request. Write or Telephone Pico 3238. F. D. S. Engineered and sold by **PACIFIC FIRE EXTINGUISHER CO.** 227 East Ninth Street
